**DooDoo Voodoo Blacklight**

Of all the blacklights we've ever used, this one works the best by far for finding urine. It's dramatically better than any of the others we've bought online, at home improvement stores, from our competitors or at pet supply stores. Made by GE, it's 18" long, has an on/off rocker switch, comes fully assembled and has a 4 1/2' cord. Don't waste your money on a wimpy blacklight that puts out the wrong wavelength of UV light—it won't show you where the urine is! And don't waste your money on those pathetic little "portable handheld" units, either. They're too weak to do you any good. We've been using this light for years and threw away all the others we'd bought. The DooDoo Voodoo Blacklight is the one you need! The price includes shipping & handling.

**Outside Indiana: \$31.94 • Inside Indiana (incl. tax): \$33.86**

\*At the recommended starting blend of 1/2oz. of DV Concentrate per quart of warm water and at the outside Indiana price. Packaging may vary from photos.

#### DooDoo Voodoo Concentrate Is:

- Easy: just add tap water
- Affordable: just pennies per spot
- Earth-Friendly: all-natural ingredients except the small amount of detergent we add to the biodegradable formula
- Highly Effective: it even works on areas where you've already used other products that failed!
- Long-Lasting: it has a virtually unlimited shelf life

#### Each Kit Includes:

- DooDoo Voodoo Concentrate
- An empty, labeled 32oz. trigger-sprayer bottle
- A small, medical-grade measuring cup
- A spout cap for easy dispensing of DooDoo Voodoo Concentrate into the measuring cup
- Written instructions for using DooDoo Voodoo by itself and with a carpet cleaning machine.
